Everything you will eat here is made from scratch. The only frozen items are the Margaritas and ice cream. Mexican food is traditionally prepared with high calorie ingredients. We make a concerted effort to use lower calorie and organic ingredients whenever possible. All of the juices we use for our Margaritas are squeezed in house. If you have a special dietary request, please ask your server for assistance. We will do our best to accommodate you. We will substitute

Vegan soy cheese or soy sour cream for a modest additional charge.

Now sit back, relax and enjoy. Let us do the rest.
